Richmond Markets, July 15. The Richmond Wheat market "opened" last year on the 19th of July, at \$1.65@\$1.75. The crop was a large one, and wheat flowed into the city from all quarters, producing, after August 1st, a weekly decline of about 5 cents w bushel, until the 9th of September, when \$1.25@\$1.35 became the ruling prices. The market this year opened on the 12th-a week earlier-at \$1.15@\$1.25; but, prices instead of remaining stationary for two or three weeks, as was the case last year, have already taken a sudden move upward-the quotations to-day being \$1,30@ \$1.40. This is a material advance, and almost annihilates the difference which usually exists between the prices of Virginia wheat here and in New York. The Bacon market continues active, with a slight improvement in the price of Sides. Corn and Flour are steady. Tobacco irregular. Groceries and other articles un-

This was bought at \$1 03, and was not of first quality. Scott, French & Co., bought a small lot of red at \$1. Knox and Wellfords have made no purchases. NEW YORK, July 16 .- Money and exchange affairs continue in a very flat condition. The usual California arrival has stirred up a little business among a few, but this is likely to subside in a day or two. Letter from King George County. Correspondence of the Alexandria Gazette. HAMPSTEAD, July 14, 1658.—After a season of protracted drought, accompanied with hot sunshine, and at intervals, with burning winds, which parched up corn fields, gar-

dens, and pastures, much to the displeasure of both man and beast, our hearts have been gladdened by the return of that sweet and welcome restorer, rain, which, though it fell softly, was of sufficient duration to satisfy the most covetous man, and to save the Corn. On the evening of Monday, the 12th instant, during the passing of a rain and wind cloud from this county to the Maryland shore, a beautiful spectacle was presented in the formation of a water-spout, near the buoy on Persimmon Point Shoal, in the Potomac. The water was raised from a base, apparently from fifty to one bundred yards in width, to a very great height, when it was met by a pointed dark cloud, in the shape of an inverted cope of quite a regular form, whose base reached many degrees upwards, to be lost in 1,908,416 77 the mass of dark clouds that were sweeping 231,883 39 onwards to pour their refreshing contents on the parched fields of our neighbors in Charles county. The spout, for some moments, seemed to be stationary, and then it moved off with much rapidity until it reached the high banks on the Maryland shore, when it disappeared. It is rare to see such a phenomena on the river, and it is seldom that so large and magnificent a one is ever seen even at sea.

I was pleased to see the communications of both "Civis" and "Shilob," which appeared in the Gazette a few days since, with reference to the propriety of changing the steamer Columbia's day of travel between the cities of Baltimore and Alexandria. I am well aware as stated, that Sunday in town is a great day for locomotion and corruption, but as the country is older than town, and the Columbia than any boat living, let us, at least, by a good example, satisfy all our neighbors that Sunday work never thrives.

Scene in a Court Room .- A correspondent of the Falmouth True Virginian gives failure of the wheat crop in Virginia, the an amusing description of a singular scene, accounts generally concur in stating that the county Court-house:

By Saturday Evening's Mails.

Mr. F. H. Pierpoint sat in a rather re cumbent position, with the back of his chair against the enormous stove near the clerk's lar to the ceiling a stove pipe of great length. Some one, perhaps Mr. Watson, the clerk, halloed to Mr. P. to take care, or the stove would be upset; thereupon Mr. Neeson and Mr. Haymond rather abruptly and loudly seconded Mr. Watson; and as if to assist in against the ceiling. Like lightning Mr. Pierpoint sprang from his seat, ran across the room, and jumped out of the window headceiling was about to fall; this capped the climax; every one took to his heels; Judge Camden jumped up on the window sill, the clerk tumbled out of the window next his desk: Messrs. E. R. Hall, A. S. Payden, G. D. Camden, Jr., Allison Femming, Wm. P. Thomp-son, and Ellery R. Hall, all made for one window, and, panie stricken, like a flock of sheep, tumbled out beels over head after Mr. Pierpoint-some on their hands; some on the backs of friends, and all presenting a most ludicrous appearance as they rolled about the court-house yard to the great terror of the young ladies enjoying the "al fres to Washington on Saturday last, having just co" of the jail porch, convenient to the window. John Keane, as if the devil was at his heels, made for the door, upset two old men, who yelled terriffically, in the hall, cleared the railings in the yard, and never looked back until he got to the other side of the knees and prayed, some were petrified with fear, and others stood agnast with wonder. In about five minutes, however, the whole scene ended. The stove did not fall, the stove pipe stood erect, the ceiling was firm, and loud laughter succeeded despair.

COTTON SPINNING ON THE PLANTATION .-We have received from the plantation of Mr. Geo. S. Yerger, of Mississippi, a choice specimen of cotton yarn produced by the application of the famous invention of Mr. Geo. G. number of cotton manufacturers, all of whom concur in admiration of its firm texture, unusual strength and general superiority over yarns produced from pressed cotton.

Thus Mr. Henry's invention is no longer in the process of experiment. He has triumphantly demonstrated that without additional labor, and with an actual saving of be doubled in value to the producer. We may confidently predict that within a few years, Mr. Henry's carding and spinning machinery will become an inseparable adjunct to the cotton gin .- Rich. Enquirer.

VALUABLE FARM FOR SALE!!—The und-resigned, for the purpose of partition, offer for sale their farm called "CARTER'S GREEN" containing six hundred and seventy five ACRES, situated in the upper end of the county of Prince William, immediately on the road leading from Aldie to Gainesville, and about equidistant from those places, or about 64 miles from each. This farm is divided into nine fields, besides a meadow and two or three lots. It is beautifully laid off, (the fields being nearly all square.) the timber is of the best qual ity, well dispersed over the farm and abundant or all purposes. The whole is well watered there being no difficulty in watering stock from every field in the driest seasons. The soil is highly fertile, (being mostly chocolate) and well adapted, to wheat, corn and grass. Indeed the facility with which the fields run into blue grass, after cropping, renders it one of the finest grazing farms to be found within twenty miles

The fencing is all in good order, and the entire farm, in a high state of cultivation. It Il and with case 75 01 can winter and graze w 80 Cattle of good size, and with very little ex penditure for fertilizers-twelve or fifteen hun dred bushels of wheat can be raised thereon annually. The present crop of fallow wheat on a field of about fifty acres, presents a feir promise of a yield of at least 20 to 25 bushels per acre; the number of Beef Cattle at present grazing on the farm is about 70 and there are one or more fine grass fields scarcely touched

and probably will not be needed. The DWELLING though plain, is in good repair and very comfortable; the out buildings are also in good order and are quite sufficient in number. The shelters for stock and farming implements &c., are perhaps superior to those to be found on any farm within ten miles. In fine, the undersigned, verily consider "Carter's Green" one of the best and most desirable farms to be found in this or any of the adjoining counties. It is nearly a square, is beautifully undulating; easy to cultivate; convenient to market, and in a neighborhood, where the society is refined, hospitable and moral.

TERMS will be easy, and for a considerable

portion of the purchase money a very liberal
